

[PEER 2025 Template] Observation grid to duplicate, adapt and translate

Auteur : PEER project **Créé le :** 21/02/2025 **Mis à jour :** 21/04/2026 **Langue :** Français

Observation grid with 2 parts:

1. Observation during the task
2. Observation during the completion of the AIA index

TASK OBSERVATION

When the participant performs the task, the experimenter notes their observations on the Peac²h form.

1. question9

HTML

Data Collection

- Document the context

2. ☐ Date - Location

Texte long

3. ☐☐ Participant (identifiant)

Texte long

4. ☐☐ Experimenter

Texte long

5. question3

HTML

Task Start

- Introduction by the facilitator
- Consent form
- Indicate start time
- Begin video recording

6. ☐ Date - Location

Texte long

Start session notes area (comments, experimental biases, etc.)

7. question5

HTML

Interaction

- Scenario by the facilitator
- Request for think-aloud

8. ☐ Attitudes during the task

Texte long

Note sighs, laughter, reactions, and indicate the exact moment observed for contextual analysis (indicate item number each time the person says something)

9. question17

HTML

Observation

- Complete the fields

10. Manipulation and interactions with the MVP

Champs multiples

Use simple and contextualized numbering.

Compliance with instructions

Hesitations

Going back

Errors

Requests for help

Problems

11. Duration of the task execution

Texte

OBSERVATION AIA INDEX

When the participant completes the AIA index, the experimenter notes their observations on the Peac²h form.

12. question8

HTML

Thank you for completing all the tasks!

Now we are going to move on to the post-task debriefing to gather your feedback on the AI assistant. To start, I am going to ask you to fill in this questionnaire, which contains around sixty questions. This questionnaire is used to evaluate the trustworthiness of an AI assistant.

- To complete the questionnaire, you have to answer the different items with 'strongly disagree', 'disagree', 'neutral', 'agree' or 'strongly agree'.
- If you are unable to answer an item, please check the 'I can't answer' box. **If you do this, please explain verbally why you can't answer.**
- If you have any questions about certain items, please do not hesitate to ask us.

13. question1

HTML

AIA Start

- Instructions by the facilitator
- Request for think-aloud

14. ☐ Date - Location

Texte long

Middle of session notes area (comments, experimental biases, etc.)

15. question13

HTML

AIA index

- Observation

16. Verbatims during questionnaire completion

Texte long

Note sighs, laughter, reactions, and indicate the exact moment observed for contextual analysis.

17. question12

HTML

Transition between interviews

- Instructions by the facilitator

18. Date - Location

Texte long

End of session notes area (comments, experimental biases, etc.)
